

# Standards for Student Mathematical Practice

- 1** Make sense of problems and persevere in solving them.
- 2** Reason abstractly and quantitatively.
- 3** Construct viable arguments and critique the reasoning of others.
- 4** Model with mathematics.
- 5** Use appropriate tools strategically.
- 6** Attend to precision.
- 7** Look for and make use of structure.
- 8** Look for and express regularity in repeated reasoning.
